

Flailbot Compact

Flailbot Compact carries all the same features as the Mini model, with the bigger Flailbot original 40hp Perkins industrial powerplant.

The compact size, but powerful 40hp Perkins engine makes the compact model a contractors first choice. With the added feature of manual wind out track width as standard, and a number of attachments available.

Key Features

- Perkins 40hp industrial engine
- 1300mm (51”) cutting head
- Manually wind out track frame
- Auto hydraulic track tension system
- Full engine covers as standard

Engine Size / Capacity
40hp / 1,496 Litres
Flailbot with Oil & Fuel
1150 kg / 2,535lbs
1300 Flail Head
210 kg / 462 lbs

Features & Specification

Flailbot	Compact (40hp)
Operation	
Max Slope	55°
Transmission	Hydrostatic
Speed	0-7 km/h
Weight	940kg
Engine	
Brand / Make	Perkins
Model	3 Cylinders, Diesel
Engine Size	1,496 Litres
Power	30 kW / 40.8 Cv
Max Torque	112 Nm @ 1800 rpm
Intake	Turbocharged
Cooling	Liquid
Air Filter	Dry
Diesel Tank Capacity	20 Litres
Engine Oil Quantity	6 Litres
Electrical Circuit	
Operating Voltage	12 Vcc
Alternator	65 Amp
Battery	18 Ah

Flailbot	Compact (40hp)
Hydraulic System	
Displacement	Tandem piston pump with variable engine size and closed circuit
Displacement Capacity	55 Litres max @ 2750 rpm
Displacement Pressure	280 Bar max
Services	Gear Pump
Services Capacity	13 Litres max @ 2750 rpm
Services Pressure	200 Bar max
Tool	Closed Circuit Piston Pump
Tool Capacity	52 Litres max @ 2750 rpm
Tool Pressure	250 Bar max
Oil Tank Capacity	25 Litres
Operating Oil Quantity	35 Litres
Controls	
Brand	Scanreco
Frequency	434 Mhz
Range Signal	150m
Battery	Rechargeable

Working range
All Flailbot models have an impressive working range of 150m (492')
